QUOTE / CONTRACT #

WORK INCLUDED (E.G. 24X20 DRIVEWAY TEAR-OUT & REPLACE, 4" 4000 PSI, #3 REBAR 18" O.C.)

EST. START DATE

EST. WORKING DAYS

**CONTRACT TOTAL** (from the signed quote - labor, materials, pump/delivery, permits) $

## PAYMENT SCHEDULE

Tie each payment to something the customer can see. Percentages should add up to 100%.

| # | MILESTONE | WHEN IT'S DUE | % | AMOUNT $ | PAID ON / CHECK # |
|---|---|---|---|---|---|
| 1 | Deposit | At signing, before materials are ordered | | | |
| 2 | Progress payment | Forms & base set / inspection passed | | | |
| 3 | Pour-day payment | Day of pour, before the truck is released | | | |
| 4 | Final balance | At completion, due within ___ days | | | |
| 5 | | | | | |
| | | **TOTAL (must equal contract total)** | 100% | | |

## ACCEPTED PAYMENT METHODS

☐ Check ☐ Cash (receipt given) ☐ ACH / bank transfer ☐ Zelle / Venmo ☐ Financing ☐ Card - fee ____ %

☐ Other: Make checks payable to:

## THE FINE PRINT (SHORT VERSION)

- **Late payments.** Payments not received within ____ days of the due date are charged ____% per month (or the most your state allows, if less). Work may pause until past-due amounts are paid, and the schedule moves by the same number of days.
- **Material prices.** This price is good for ____ days. If concrete, steel or fuel prices go up more than ____% before materials are ordered, the contractor will show the supplier's increase and the customer approves the new price in writing before work continues.
- **Changes.** Any change to the work, price or schedule - including "while you're here" extras - is only made with a signed Change Order (page 2). Verbal changes are not binding.

**By signing, both parties agree to the payment schedule and terms above.**

# Change-Order Sign-Off

Nothing changes until it's written down and signed by both of you.

CHANGE ORDER # | DATE | ORIGINAL CONTRACT / QUOTE # | CUSTOMER

JOB ADDRESS

## WHAT'S CHANGING

Be specific: size, thickness, finish, location, quantity.

1.
2.
3.
4.

## WHY

☐ Customer request ☐ Site condition found (soft subgrade, roots, debris, buried utilities) ☐ Inspector / code requirement

☐ Other:

## PRICE & SCHEDULE

| | |
|---|---|
| Original contract total | $ |
| Previous change orders (net + / -) | $ |
| **This change:** ☐ Add ☐ Deduct | $ |
| **NEW CONTRACT TOTAL** | $ |

**SCHEDULE IMPACT**

Adds / removes ____ working days

**PAYMENT FOR THIS CHANGE**

☐ Due before this work starts

☐ Added to next scheduled payment

## CUSTOMER-REQUESTED CHOICES AGAINST CONTRACTOR ADVICE

*Check & initial each one that applies*

The contractor recommended against each choice checked below and explained the likely result. The customer chose to go ahead anyway and accepts that risk. Problems caused by these choices are not covered by the contractor's workmanship warranty.

| CHOICE | LIKELY RESULT | RECOMMENDED | THEY CHOSE | INITIALS |
|---|---|---|---|---|
| ☐ Less slope / drainage than recommended | *standing water, ice, water toward house* | | | |
| ☐ Thinner slab than recommended | *cracking, breaking under vehicles* | | | |
| ☐ No rebar / wire mesh / fiber | *wider cracks, slabs shifting apart* | | | |
| ☐ Fewer control joints or a different layout | *random cracking* | | | |
| ☐ Pouring in cold, hot or wet weather | *weak, flaking or scaled surface* | | | |
| ☐ Skipping base prep / compaction or extra base | *settling, sinking, cracking* | | | |
| ☐ **Other:** | | | | |

**Work on this change starts only after both parties sign. All other terms of the original contract stay the same.**

# How to Use These

Five habits that get you paid in full and keep you out of he-said-she-said.

**1**

### Sign page 1 before you order anything.

No signed schedule and no deposit = no truck, no rebar, no forms. Check your state's deposit limit before you set the deposit %.

**2**

### Tie every payment to something the customer can see.

"Forms set" or "pour day" beats a calendar date. When the milestone is done, send a photo and the invoice the same day.

**3**

### Every change gets a change order - before the work.

Even "while you're here" extras. Fill page 2 on site, have both of you sign, and text a photo of it so there's a timestamp.

**4**

### If they insist against your advice, put it in the box.

Low slope, thin slab, no rebar, pouring in bad weather: write what you recommended, what they chose, and get initials. That's your record if it cracks or ponds.

**5**

### Keep copies with dated job photos.

Give the customer a copy of every signed page. Keep yours with photos of the base, forms and pour - they settle most disputes.

## QUICK CHECKLIST BEFORE THE POUR

- ☐ Page 1 signed by both parties
- ☐ All changes so far on a signed change order
- ☐ Pour-day payment arranged with the customer
- ☐ Deposit received
- ☐ Any against-advice choices initialed
